

NOTICE TO JOB APPLICANTS

1. As part of our pre-employment screening process, all prospective production employees may be required to undergo testing for controlled substances. Applicants who refuse such testing or who test positive for illegal drug use will not be considered for employment. If you feel that you cannot successfully complete this portion of our hiring process you are encouraged not to apply at this time.

2. Most production positions at Menzner Lumber require the use of tape measures and other measuring instruments. On the form below in the right hand column, please write down the measurement that is indicated on the ruler. If you have difficulty completing this exercise, you may not be suited for employment with us at this time.

Name _____ Date _____
